The Walter Pyramid Pointe was a digital realm for a weekend full of video games, competitions, gaming collectibles and more.

VIDEO GAMES

PIXEL PARADISE

BeachCon continues to grow to the point of being too big for The Pointe.

By Jason Enns
Arts & Life Editor

Do you remember having sleepovers with your friends when you – fueled by loads of soda, Red Bull, chips and candy – would stay up all night playing video games? Well, BeachCon 2017 was like that, amplified tenfold.

The Cal State Long Beach E-sports Association hosted its third BeachCon March 4 and 5 at The Pointe underneath Walter Pyramid. The day transitioned into evening on Saturday, as some gamers went strongly through the night, not leaving until 2 a.m. Then it was back to The Pointe to keep the video feeds streaming at 10 a.m. Sunday.

This year will perhaps be the last BeachCon to take place in The Pointe, according to organizer Cat Tompkins, a Master's of Business Administration student at CSULB who says the expanding event is outgrowing the venue.

"Traditionally, BeachCon is always held at The Pointe under the Walter Pyramid," Tompkins said. "But it looks like this is going to be the last year it's ever going to be here, which is kind of bittersweet – but it's time to move on to bigger and better things."

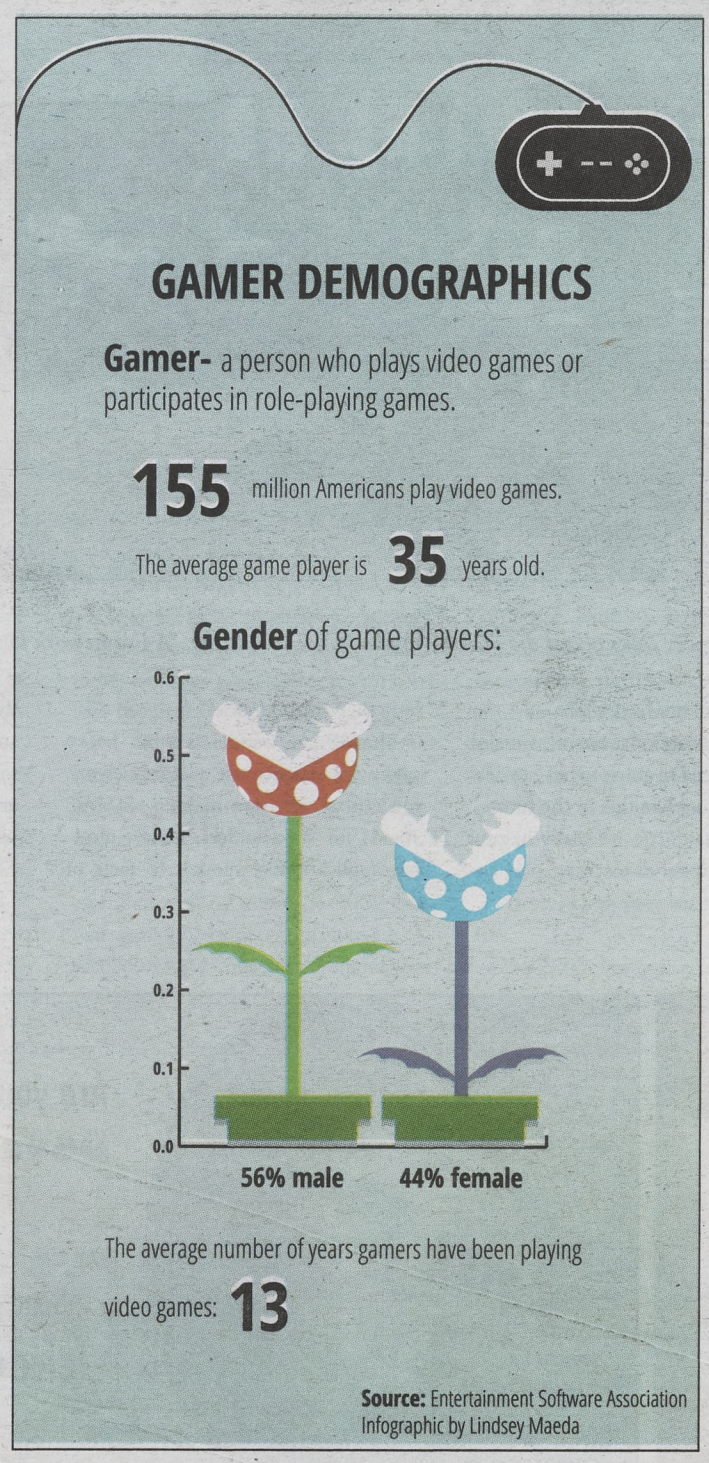

It should be a welcome change, considering con-goers were shoulder-to-shoulder in The Pointe. Some people were dressed in cosplay, some were wearing various shirts for whatever sponsor they were with, while others rocked their casual garments. One thing everyone had in common was a love for gaming.

> A lot of us turn to gaming as a way to escape some of the things that are going on in our lives, as a way to get away from the stress in both a healthy and unhealthy way
>
> *-Jason Docton, CEO of Anxiety Gaming*

"We had [CSULB] President [Jane Close] Conoley come through here yesterday and she was amazed by [the event]. She was like, 'Where has this been this whole time?'" Tompkins said.

As you make your way past the various booths full of tech or artwork, you wiggle your way into a giant, dark room that looks like a dimly-lit NASA headquarters. Row upon row of computers are paired with one to two sets of eyes, laser focused on the screen as twiddling thumbs rapidly click away on keyboards,

ACADEMIC SENATE

Senators propose $2 billion bond bill

Measure SB 483 aims to provide funding for public university campuses.

By Ammi Ruiz
Staff Writer

Democratic state senators have introduced a $2 billion higher education bond bill in an effort to improve infrastructure for University of California and California State University campuses.

The legislation, Senate Bill 483, was co-authored by Sen. Steve Glazer, D-Orinda and Sen. Ben Allen, D-Santa Monica, who also serves as chair of the Senate Education Committee.

The senators have proposed a statewide sale of $2 billion in general obligation bonds that will provide funding for new buildings at higher education institutions. California voters will have the opportunity to vote on the bonds in the 2018 general election.

"California's public colleges and universities are a source of great pride to our state, but unfortunately we've allowed their physical facilities to fall

WORKSHOP

Ethics discussion goes beyond business

Having the Courage to Do the Right Thing was the theme of this semester's Ethics at The Beach workshop.

By Sommer Dalton
Staff Writer

Students of all majors, ages and backgrounds gathered at the Ethics at the Beach workshop on Friday to hear about how the power of ethics can not only be used in the workplace, but in their personal lives as well.

The event came about as a way for The Ukleja Center for Ethical Leadership, a branch under the College of Business Administration, to equip people with the transformational power of ethical leadership.

The Ukleja Center partners with the Associated Business Students Organization Council and Student Center for

ACADEMIC SENATE

CSULB Academic Senate cleans up committee clauses

Amendment-focused meeting also sees cybersecurity minor move to President's desk.

By Adam R. Thomas
Staff Writer

The Cal State Long Beach Academic Senate held a lengthy amendment marathon over policy guidelines related to the selection and appointment of high level academic administrators on Thursday.

For the second week in a row, senators made up of CSULB faculty went through policies related to committees that select deans, associate deans, vice presidents, provosts and other administrators at CSULB. The senators scrutinized the policy line-by-line, a process which took up the bulk of the meeting's two-hour duration.

"The idea is that for these high level positions, we want full representation from the university," Norbert Schurer, chair of AS, said. "For instance – students. There are students on almost all of these committees and we want students on them. We have to be sure that if a student changes campuses or can't [attend] for some reason, that the position is filled. Same thing for staff members."

Of particular policy concern to the Senate was the issue of interim appointees. Schurer explained that interim administration appointees are selected by the office of the CSULB president and can remain "interim" appointees for extended periods of time – up to three years or more.

"[Interim appointees] sort of circumvent the shared governance process," Schurer said. "We're trying to make sure that this stays at a minimum and that we move to a process where all of the school's constituencies are included as quickly as possible."

A primary source of debate for the Academic Senate on this issue was to limit the amount of time an administrator could be considered to be "interim." It was resolved by the senate to limit an interim position to a year's duration, but a final vote is to be held at the next joint session.

According to Schurer, the policy hearings on administrative selection committees was the culmination of a process that has taken an entire year.

> "Almost always [CSULB President Jane Close Conoley] signs off on what the Academic Senate says. By the time it gets through here, pretty much everybody agrees on things, and that's why the president almost never says no."
>
> *-Norbert Schurer, CSULB Academic Senate Chair*

The long process started with a review by the Faculty Policies and Procedures Committee, and was under review from many representatives from all governance groups on campus. Such scrutiny tends to assure policy acceptance, according to Schurer.

"This is one of the really important policies," Schurer said. "Almost always [CSULB President Jane Close Conoley] signs off on what the Academic Senate says. By the time it gets through here, pretty much everybody agrees on things, and that's why the president almost never says no."

Earlier in the meeting, presentations were given by standing committees on the creation of several new minor options to be added at CSULB.

The first was the second and final reading for a minor in Cybersecurity. The reading received no objections on the Senate floor, moving the proposal to the desk of president Conoley for final approval.

In addition to the minor in Cybersecurity, a Master of Science degree in finance and a minor in art history went through their first readings on the Academic Senate floor.

"It's the first minor we've ever attempted to offer through the school of art," said Karen Kleinfelder, the art department faculty member who read the proposal. "Before the term 'global studies' had ever been coined at this university, art history was always a program dedicated to understanding cultural diversity. Students taking these courses will be guaranteed to be broadened in terms of global understanding – something very needed these days. More than ever."

Neither proposal for these new degrees met with objection and will appear at next week's meeting for final approval before moving to Conoley's desk to be signed. All three proposed degrees are scheduled for the upcoming fall semester according to their written proposals.

"If they have to create a bunch of new classes, it might take a little bit longer [to offer the new degrees]," Schurer said.

The next Academic Senate meeting is scheduled for March 16. After final voting on the administrative committee rules, the next major policy up for review revolves around class scheduling and could result in more classes occurring on Fridays.

ETHICS

continued from page 1

Professional Development to offer the annual ethics workshop.

Elizabeth Rodriguez, a senior business management and operations supply chain major and the chairperson of Ethics at The Beach, wanted for students to leave with a broader view on ethics.

"This event is for the whole school and for every major," Rodriguez said. "We want to welcome everybody and make sure that they have the chance to take what they learn here, and apply it to their life."

The event included two guest speakers, both professors at CSULB. The first speaker, Kathleen Lacey, is the faculty director for the Ukleja Center for Ethical Leadership. Her talk was titled "A Framework for Ethical Decision-Making."

"Dr. Lacey talks more about the ethics of business and how it affects people in a company sense," Rodriguez said.

Nubia Hernandez, a senior international business major who attended the event, spoke about how Lacey's talk provided her with knowledge she could apply to her future job.

Sommer Dalton | Daily 49er

Kathleen Lacey talks about the SIMAC model in her talk titled, "A Framework for Ethical Decision-Making."

"As an international business major I'm pretty sure I'm going to have to deal with something like this in the future," Hernandez said. "So it's really helpful to learn the tips she's teaching, particularly the SIMAC model."

The SIMAC model is what Lacey says attendees can use as a framework for ethical decision-making. SIMAC stands for stakeholders, issues, models, application of models to facts of the case, conclusion and collaborative solution. Hernandez says this is useful information for students like her who are looking to navigate the business world in the future.

Alexandra Billings-Blankenship was the second speaker whose portion was titled, "Don't Look. Leap."

Billings is an actor, teacher and transgender activist. Her talk revolved around inspiring students to take matters into their own hands and cast away the pressures they place on themselves.

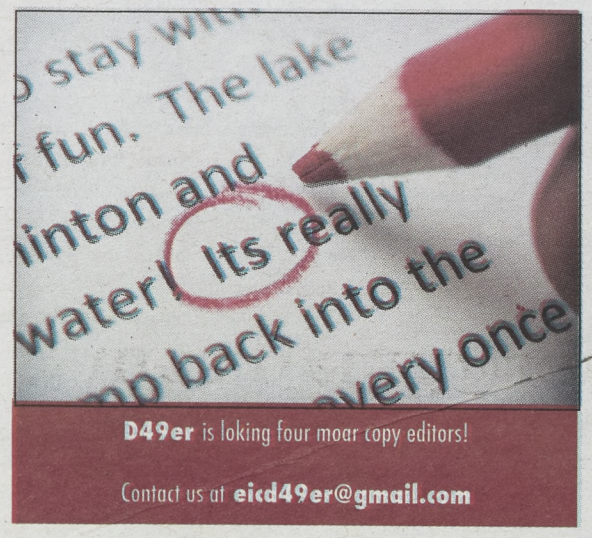

"Alexandra goes more into how different decisions shape who you are and affect your life," Hernandez said. "The vibe completely changes in the room when she speaks. Students are excited to hear what she has to say."

Together, both speakers provide a different aspect to the discussion on ethics.

"This event isn't only about business or finance," Hernandez said. "It's about doing the right thing for others. It's being ethical not only in your business life or workforce, but in your personal life as well."

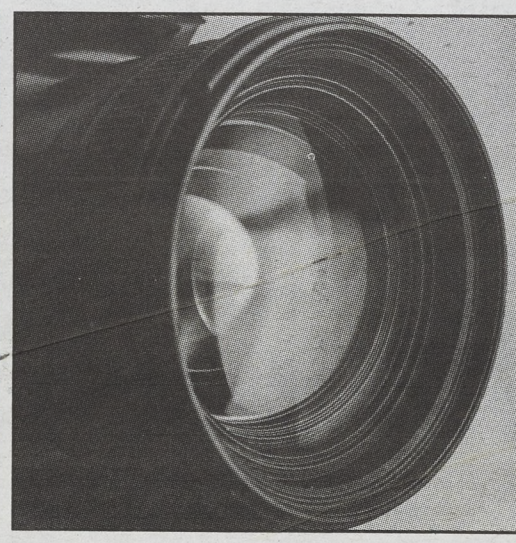

Billings left students with a powerful quote by Marianne Williamson, as the closing statement to the event, encouraging attendees to reevaluate themselves and who they want to be.

"Our greatest fear is not that we are inadequate," Billings said. "Our greatest fear is that we our powerful beyond measure. It is our light, not our darkness that most surrounds us."

CAREER

Entrepreneur Lauren Berger works for dreams

ASI Beach Pride hosts Intern Queen CEO for student session.

By Hasham Nusrat
Staff Writer

Lauren Berger, CEO of the website Intern Queen, spoke at the "Land That Job" seminar hosted by Associated Students, Inc. Beach Pride on Thursday in the Cal State Long Beach University Student Union ballrooms.

Founded in 2009, Intern Queen is a website that provides and directs young people to acquire their dream jobs and internships in their respective fields. She gives lectures, and is also a self-proclaimed internship expert with years of experience in career guidance.

LAUREN BERGER
CEO OF THE WEBSITE INTERN QUEEN

The seminar was organized for students looking to get their hands on landing jobs and internships.

"I want you guys to walk out of here with a workbook in hand and a plan ready to go," Berger said.

Approximately 45 people, mostly students, showed up at the seminar. Berger, who was also the keynote speaker, shared her personal experiences of getting jobs and gave tips to students.

"When you don't know what to do, and your road is blocked, figure it out," Berger said.

There was also a Q&A session for students that was accompanied by a workshop where they got to work with Berger one-on-one.

"I believe that this event here is influential and prepares students for the future, and the major point of this event is to follow up and connect with people," said Alan Garcia, an alumnus from 2016.

During her speech, Berger talked about the importance of getting internships as a path to a good job. She shared her journey of getting her dream job through an internship and offered students advice in the way of interview follow-ups, building a social media presence and taking rejection in stride.

"I liked [seminar]; it's really insightful and knowledgeable," said James Kim, a senior accounting major. "It taught me many things I didn't know. I recommend freshmen to come here and acquire knowledge."

AWARDS

CSULB student media take top state honors for campus media

Both campus newspaper and magazine were recognized across categories in weekend awards ceremony.

Daily 49er staff

SAN FRANCISCO — The Daily 49er and Dig Magazine took home 16 awards at the California College Media Association competition Saturday night.

The winners were announced at CCMA's annual banquet at the Hyatt Regency hotel in downtown San Francisco.

Dig Magazine won first for Best Magazine Website, Best Magazine Story and Best Magazine Spread.

The Daily 49er earned first place for Best Breaking News Story for Ariana Sawyer's story on the settlement of the faculty strike. The news organization also earned top honors for, Best News Video, Best Non-News Video and Best Photo Series.

The Daily 49er also placed second for Best Newspaper among large schools with student populations above 10,000. Other winners were The Orion at Chico State, first; The Daily Californian at UC Berkeley, third; and the City on a Hill newspaper at UC Santa Cruz, fourth.

"I hate to brag about how proud I am of our staff, but that's exactly what I am – proud," said Micayla Vermeeren, Editor in Chief of the Daily 49er. "The quality of content we produced left no doubt that we'd be walking away with the level of recognition we got."

The annual student media contest generates roughly a thousand entries from colleges, universities and community colleges all over the state. This year, 37 community colleges, Cal State Universities and Universities of California submitted a total of 1,182 pieces of media.

The Daily 49er also won first place from the Associated Collegiate Press on Sunday for Best of Show and eighth for Best Special Section for Localmotif, the music issue.

ACP awards were a part of the National Midwinter Convention, which was held in congruence with the CCMA awards banquet at the same hotel.

BOND

continued from page 1

into disrepair," Allen said in a press release. "This bond measure will provide a much-needed and overdue investment in our higher education infrastructure."

The so-called investment will help lower the price tag of future facilities projects at public universities, which come at a much greater cost than the proposed $2 billion, according to the joint authors of the bill.

The CSU system needs $7 billion for short-term and long-term construction projects, while the UC body needs $10 billion. The two systems are currently able to self-fund about half of their respective capital requirements for desired buildings and renovations.

The construction of the new College of Continuing & Professional Education building at Cal State Long Beach costs $30 million alone, according to a recent article published on the CSULB website. The CCPE building is expected to be available to students in Fall 2018, but until then, students and staff of the college will continue using classrooms dispersed throughout the campus.

"This measure provides important financial backing for critical upgrades to our libraries and classrooms on college campuses," Glazer said in a statement. "And I believe voters should be given a chance to continue the proud legacy of supporting our universities and colleges."

A similar $1.6 billion dollar bond was approved by voters in 2006, but that capital has since been used up. A $9 billion K-12 construction bond was also approved last November.

The Public Policy Institute of California released a survey in December 2016 that shows a majority of likely voters (60 percent) support a bond measure specifically tailored for higher education facilities, such as SB 483. The survey also revealed about half of likely voters (48 percent) would be willing to pay higher taxes in order to fund new and improved buildings at public universities, while only about one in five (21 percent) support increased student fees.

The PPIC survey also reveals that 67 percent of adults believe state funding for California colleges and universities is inadequate. In addition, 49 percent believe that along with increasing state funding, existing funds should be used more wisely. 36 percent believe the wiser use of existing funds alone would effectively work to improve the school systems.

"Students shouldn't have to spend more money on fees every single time the school decides there should be a new building," said CSULB senior business major Eduardo Perez. He plans to vote yes on the proposed bill.

LENT

Ashes for God, glitter for gays

"Inclusive" glitter for Ash Wednesday smudges the meaning of Lent.

By Marilyn Isabel Ramirez
Staff Writer

Last week, my boyfriend and I headed to St. Joseph's for Ash Wednesday Mass to signal the start of the Lenten season, the 46 days leading up to Easter Sunday.

The ceremony was almost an hour long, and we left with black dust on our foreheads as a visible sign of the penance and sacrifice that we acknowledge during this liturgical season.

Because that's what Lent is: understanding that we began as dust from which God made us as well as renewing our faith.

Until Easter, we're acknowledging that we have made errors in judgement or have strayed from the faith, and we're reminding ourselves that for the upcoming weeks, we're vamping up our humility through penance and sacrifice in anticipation of Easter.

That's it.

In recent years, members of the LGBTQ community have decided to integrate their own beliefs on what Lent could represent to them.

LA Times writer Alene Tchekmedyian notes that parishioners across the country are tossing purple glitter into the distributed ashes as a sign of solidarity for those who've typically been excluded from almost all religious denominations. To them, it's a symbol of hope and celebration.

It's a beautiful, flawed concept.

What's happening is a change in a very specific meaning, one that hasn't necessarily had anything to do with homosexuality.

Ash Wednesday signals a season of repentance within the individual and urges two things: indicting our mortality and identifying instances in our lives where we can develop spiritual growth.

Some examples might be attending Mass on a regular basis, making prayer part of a daily ritual, or giving time to a group of your interest. It's about a sacrifice that you make, or a promise to perform an action with humility that brings you closer to your faith as an individual.

The role that LGBTQ supporters were trying to play doesn't exactly fit into that meaning.

> "What's happening is a change in a very specific meaning, one that hasn't necessarily had anything to do with homosexuality."

Purity, a faith-based organization that attempts to revitalize faith within the LGBTQ community, created a program called Glitter+Ash that was designed to combine symbols of mortality and penance with hope and celebration.

On the organization's website, they define glitter as "an inextricable element of queer history … We make ourselves fabulously conspicuous, giving offense to the arbiters of respectability that allow coercive power to flourish."

The glitter is supposed to represent a hopeful resemblance of the ashes, and this distorts the purpose of Lent. It signifies someone who feels excluded attempting to warp the solemnity and universality of this rite to fit into a specific intention: to define who you are not spiritually, but your stance on sexuality and gender.

I support the idea of making religions like Catholicism more inclusive to groups that have been predominantly shunned.

The Bible has been attacked as being ridiculously homophobic, and all throughout religious history, there's been more than enough evidence showing examples of homophobia through Scripture and religious leaders.

Through this event, however, the concept behind the glitter doesn't coincide with this event. The celebratory attitudes don't align with the solemnity that Lent calls for.

The glitter itself isn't flashy, despite the rainbow-tinted cross on the Purity website. It's barely even noticeable. The dark, purple glitter blends well with the black ashes.

My real concern is that the fundamental message of Lent is getting spun to fit a specific agenda. The cross-shaped ashes on our foreheads are already a symbol of unapologetic devotion to reserving the following 46 days for self-reflection and penance.

They already hold the individual accountable for his or her actions, regardless of race, sex, age, gender, class, etc. They alone are a universal mark that all believers acknowledge as a symbol of sacrifice.

I think that should be enough.

If the glitter were to be marked as some kind of celebratory symbol of new beginnings, it'd be more fitting to have that surface on Easter, the celebration of new life and hope through God. But support for LGBTQ parishioners should not be limited to symbolic assignment when it comes to important ritual meaning, rather on a greater institutional level.

Visit www.ccpe.csulb.edu/summer for the most up-to-date and complete schedule of classes.

Payment Plan Available

*Course has additional class components. Please check website and MyCSULB for more class details.

CSULB Summer Sessions

One 12-Week Session: May 30–August 18 (SSD)
Two 6-Week Sessions: May 30–July 7 (S1S)
and July 10–August 18 (S3S)
www.ccpe.csulb.edu/summer

More than 75 Online Summer Classes

Summer Study Abroad

Study abroad this summer! Studying abroad is one of the best ways to make the most of your college education. Be one of the fewer than two percent of all U.S. college students who study abroad.

CSULB Summer Session Abroad will offer more than 40 CSULB courses (taught by CSULB faculty) in 24 countries: Barbados, Belarus, Cambodia, Canada, China, Costa Rica, Czech Republic, England, France, Germany, Greece, Guatemala, Hungary, Israel, Italy, Mexico, Nicaragua, Scotland, South Africa, South Korea, Spain, Taiwan, Thailand, and Vietnam.

ASI-CSULB Study Abroad Summer Scholarships
Scholarships of $750 will be awarded for summer 2017 programs sometime in April.
Deadline to apply: March 13, 2017.

Attend the Study Abroad Expo

March 8, 2017
10 am–2 pm
Maxson Plaza in front of Brotman Hall

"Logan" features a late-in-life Wolverine in a post-X-Men setting, when both his and Professor Xavier's mutant abilities are slipping from them.

MOVIE REVIEW

Jackman's fond farewell to film franchise

Hugh Jackman's final time as Wolverine is the best, and bloodiest, one.

By Carlos Villicana
Staff Writer

Sold as Hugh Jackman's final appearance as Wolverine, "Logan" is Twentieth Century Fox's third try at a solo adventure for the Canadian hero. Unlike past installments, this movie does not play out like most superhero cinema, drawing more inspiration from Westerns than it does any comic book. The film is a self-contained story that does not promise any sequels or require the audience to see those that came before it.

In 2015, it was said that the movie "Logan" was to be a loose adaptation of Mark Millar and Steve McNiven's comic book miniseries "Old Man Logan." But this James Mangold-directed movie is hardly like that comic book which many fans expected it to be, and it's better because of it.

"Logan" ditches the apocalyptic setting of Millar and McNiven's cynical and iconic book for a depiction of America in 2029, where mutants are as close to extinction as your neighborhood video store. The only things the two stories really share are a lack of Wolverine's X-Men friends and an abundant supply of bloody violence; neither story should be seen by people who can't handle the latter.

But if you can handle Hugh Jackman's claws visibly penetrate through a skull and leave a trail of blood each time, this movie is an absolute must-see.

Wolverine, also known as Logan, is now old and full of scars, gray hairs and booze. His healing factor has begun to fail him, and it makes every encounter the character has much more suspenseful because he's finally vulnerable. He spends his nights in the streets of Texas, begrudgingly carting around a smorgasbord of rowdy strangers like a mutant Uber driver, in order to pay for medicine and a yacht he wants to use to spend the rest of his days at sea.

The medicine is for his telepathic friend and former mentor of the X-Men, Professor Charles Xavier (Pat-

GAMERS

continued from page 1

joysticks and game controllers. Two large projectors display tournaments for "Super Smash Bros. for WiiU" and "Overwatch."

The "Overwatch" semi-finals between e-sports clubs at UC Irvine and UC San Diego were wrapping up before Tompkins transitioned into an afternoon raffle. Not only could con-goers receive gifts from sponsors like Hearthstone online gaming, EVGA — an American computer hardware company — and Kind snacks, but the winner of the tournament will receive a $1,000 scholarship.

CSULB's own e-sports club only started in 2013, but has grown exponentially.

"We encompass all kinds of casual, competitive gaming on campus," Tompkins said. "We have a community of over 800 members online and offline. We have nine teams competing for scholarship money in these giant national leagues and then we also always give back to charity."

Among the Red Bull mini fridges were products from other major sponsors, one of which was a gaming computer company Tompkins currently works for, iBUYPOWER. Not only did they provide the computers for the "Overwatch" tournament, but they also provided an iBUYPOWER desktop for the grand prize raffle.

Yasmin Cortez | Daily 49er

Gamers were able to compete against each other and show off their skills at the 12th annual Beachcon over the weekend.

All those who went to the free event received a raffle ticket, with the option to purchase extra for $1 a piece. Freshman engineering student at CSULB Griffin VanBeek won twice during the 3:30 p.m. drawing, taking home the game "Paragon" for PS4 and an EVGA Torq computer mouse.

"I purchased a few [tickets] … 50," VanBeek said.

Proceeds from the raffle will go to Children's Hospital of Orange County and Anxiety Gaming, a nonprofit focusing on mental health issues operating out of Long Beach.

"Anxiety Gaming is a way of using video games and e-sports to talk about depression and anxiety within the gaming community," CEO Jason Docton said. "A lot of us turn to gaming as a way to escape some of the things that are going on in our lives, as a way to get away from the stress in both a healthy and unhealthy way."

Anxiety Gaming representatives were at BeachCon handing out sodas, chips and candy, hoping to have a chance to open up a dialogue about mental health issues.

"If you wanted to see a therapist, if you wanted to talk to someone on a professional level I help people get connected to therapists," Docton said. "I can cover the cost for them too if they can't afford it, it's one of the big things that we do."

It was Anxiety Gaming's first year participating in BeachCon, but likely not its last as the event continues to grow larger every year. Tompkins shows no sign of slowing down.

"The biggest thing I look forward to is definitely bringing the whole community together," she said. "That's always been my biggest goal and that's the whole reason why I do these events."

LOGAN

continued from page 5

rick Stewart), who is now suffering is locked in a Mexican smelting plant where he rambles like a madman and curses like a sailor. He calls this place home and shares it with Wolverine and the towering albino Caliban (Stephen Merchant), a mutant with the ability to sense and track other mutants.

The three passively live through routines that they all clearly despise but cannot escape, and the closest thing they have to friends are each other. But their isolated routine is broken when a Mexican nurse named Gabriela (Elizabeth Rodriguez) comes to Wolverine in desperate need of help. She needs Wolverine to escort her and a mysterious mute girl, Laura (Dafne Keen), to a supposed safe haven for mutants that is known only as Eden. The two are being chased by some very bad people who want Laura and will spare no one to get her.

"Logan" is a much more politically charged movie than any of the other modern superhero affairs that it shares source material with. Mangold crafts a film that is so clearly about immigration that to not see it, one would have to be blinder than Wolverine's presumably deceased fellow X-Man Cyclops.

The plot revolves around someone from a marginalized group trying to cross a border in search of a safer life while hunted by the Reavers, a group of ruthless and mechanically enhanced hunters who happen to be xenophobic and white. Their leader is Donald Pierce (Boyd Holbrook), and he's a big Wolverine fan. They work for Zander Rice (Richard E. Grant), a surgeon who created Laura and engineered the extinction of Earth's mutants. Now, he's after her for not becoming one of his soldiers.

Here, America is positioned as a country that exploits those who are considered "other" and gives them little but pain in return. Mangold does something different than similar narratives by not positioning America as the safe haven that our heroes are trying to get into, instead recognizing the truth of how many minorities in this country are treated. It's this politically-influenced narrative that helps elevate "Logan" above other modern superhero movies. This is a clear response to the political climate of its time.

> "Jackman and Stewart both said this would be the last time we'd see them in these roles, and in that final effort they give their best."

The villains are portrayed callously by their respective actors, but they suffer from the common problem of underdeveloped villains in superhero movies. You will hate these guys because of the things they do, but there isn't much more to them than being robotic, Nazi-like killers who think they're the good guys.

Sadly, Caliban is also underdeveloped. His biggest moment in the film isn't anywhere near as satisfying as it should be. We don't see enough of his struggle to be truly invested in him, and this moment doesn't have any kind of payoff. His arc feels rushed and too depressing in comparison to the rest of the movie.

The movie's R rating is not to be taken lightly. Where "Deadpool" felt like it was as eager as a twelve-year-old to show how cool it is to say "fuck" and as eager as Eli Roth to assault you with gore, "Logan" simply presents these things as a part of the world that the characters inhabit. It's shocking because we aren't used to seeing these characters like this, but this way of not emphasizing the fact that it can include violence and profanity makes the characters feel like they belong in this distinctly different tone.

Since the first "X-Men" film from 2000, both Xavier and Wolverine have been among the strongest and most enduring of the X-Men. Now they are alone, old, ill and practically begging for a death that will end their suffering. In showing them like this, the film creates sympathy for the protagonists that would be harder to have without the knowledge of their previous relationship and heroic adventures. It also helps that the consequence for failure is not once again the end of the world. Because it's believable that our heroes may fail and die, we're more invested in seeing them avoid that fate.

Jackman and Stewart both said this would be the last time we'd see them in these roles, and in that final effort they give their best. Stewart looks like he's having the most fun he's ever had now that he can drop an f-bomb, and Jackman really makes you feel every bit of rage and heartbreak that oozes from Wolverine. Not one of his screams of agony feels hammy or overdramatic. If I had any say in the matter, the Wolverine character would retire with them; because it's very unlikely that we will ever see a better version of this character in a movie better than "Logan."

But, the X-Men will continue beyond "Logan." Its box office success guarantees it. In its 17 year existence, the franchise helped push Wolverine into the A-list of superheroes.

It's difficult to imagine a world where another Wolverine-centric film doesn't play in multiplexes across the world, and if Twentieth Century Fox plans to pass the Wolverine mantle on to another character, they've got the perfect substitute in Laura.

She's as vicious as Jackman's version and she grows more likeable in each interaction with Jackman. Newcomer Keen never feels out of place when sharing the screen with her experienced and accomplished co-stars, and she's got the youth to carry this franchise for decades longer than Jackman did.

WOMEN'S VOLLEYBALL

Beach breezes to win

Luke Ramirez | Daily 49er

Junior Antete Brinke hits a kill against a Cal State Bakersfield player Saturday at LBSU Sand Courts.

Long Beach State beach volleyball kicks off season.

By Matthew Simon
Sports Editor

Starting its season off at home, the Long Beach State beach volleyball team had no problem sweeping both of its matches against Irvine Valley College and Cal State Bakersfield on Saturday.

No. 7 LBSU (2-0) opened its season against Irvine Valley Community College and easily defeated the Lancers 5-0.

In the top flight, junior Rachel Nieto and senior Nele Barber defeated IVC's freshmen Taira Ka'awaloa and Hannah Salaya 21-7 and 21-10. Nieto finished the match with 18 kills.

The No. 2 team of junior Sasha Karlov and senior Kobi Pekich also cruised to a quick 21-13, 21-8 win against IVC's freshman Lucee Fitzgerald and sophomore Brittany Tuliau. Karlov made her debut for the 49ers in the victory.

Among LBSU's matches against IVC included a win from senior Heather Weiss and senior Morea Wagner, who also won their match 21-11, 21-7 in their debut for the 49ers.

In LBSU's second match of the day, the 49ers also had no problems working their way to a sweep.

Junior Anete Brinke started in her first match of the season alongside sophomore Zoi Konstantopoulou and the pair had no problems as they defeated Cal State Bakersfield's sophomore Hannah Manzanares and freshman Madi Busler.

That was the only change in lineup for the 49ers and just as the team did against IVC, LBSU swept its matches from No.1 to No. 5.

The widest margin of victory went to No. 5, senior Jenelle Hudson, and sophomore Megan Kruidhof, who defeated their opponent, 21-5 and 21-7.

LBSU will be back in action Tuesday when they host Cal State Los Angeles and No. 7 Stetson.

MEN'S BASKETBALL

49ers hold off Hawai'i in win

LBSU dominates the paint to secure fourth place finish in Big West.

By Christian Gonzales
Staff Writer

Christian Gonzales | Daily 49er

Junior guard Justin Bibbins attempts to crossover a Hawai'i defender Saturday at the Walter Pyramid.

With the game out of reach, Long Beach State men's basketball's lone senior Anson Moye nailed a free throw to cap the 49ers' win on senior night Saturday against Hawai'i.

The men dominated the paint Saturday at the Walter Pyramid to beat Hawai'i, 84-75, as sophomore Temidayo Yussuf was a perfect 9-for-9 from the floor, finishing with 23 points.

With the victory, LBSU (14-18, 9-7 Big West) finishes fourth in the Big West Conference and will match up against the fifth place Hawai'i (14-15, 8-8) on Thursday at 8:30 p.m. in the Honda Center for the Big West Tournament.

It'll be the third time the two teams face each other this season.

On Saturday night, the 49ers went straight to Yussuf early and often throughout the game as LBSU had a 19-15 lead in the first eight minutes.

"He [Yussuf] is going to be a force inside," LBSU head coach Dan Monson said. "He certainly has proved that down the stretch."

Going inside early led to easy ball movement for the 49ers. LBSU had eight assists on its first nine field goals made.

"My teammates believe in me," Yussuf said. "They give me opportunities in the game. The more they feed me the more I see that they believe in me."

But streaky shooting from the Rainbow Warriors team beyond the arc cut into LBSU's lead, as Hawai'i made 6-of-8 3-pointers to give them a 28-26 lead.

At halftime, the 49ers had a 45-39 lead, only allowing Hawai'i to score eight points inside the paint.

After recent second-half struggles, the 49ers had no problem holding off Hawai'i.

The 49ers never gave the Rainbow Warriors a chance to lead or tie the game.

LBSU got help from sophomore guard Noah Blackwell as he drained five 3-pointers in the game, three in the second half. He finished with 17 points in 6-of-10 shooting.

The 49ers will now prepare to take on Hawai'i in a game that will be a rematch of last year's Big West Tournament championship game.

"It will be a great game on Thursday," Monson said. "They have taken us out of the tournament the last two years and that will be something I do remind our guys about. This is a team that has ended our season the last couple years and we have to rise up to that and take that challenge on Thursday."

The 49ers are ticking at the right time in March and have seemed to find what it will take to win the Big West.

TRACK AND FIELD

LBSU track wins against UCLA

Sophomore Kemonie Briggs sets personal record in long jump.

By Alex Manfredi
Staff Writer

The Long Beach State track and field team defeated UCLA in a dual meet Saturday at the Jack Rose Track.

The men's team had an overall score of 98 points to UCLA's 71 and the women came out on top 100.50 to 86.50.

It was the first outdoor meet of the season for The Beach, as well as its first event at home.

"It's great to have a home crowd, and I just can't tell you how much that means," Long Beach State head coach Andy Sythe said.

For the men's team, they took first in the three distance events and in three jumps events. Notable performances came from freshman Braeden Kraft in the 800m run, senior George Martinez in the 1500m, sophomore Josh Carr in the discus throw, senior Robert Marlow in the hammer throw and sophomore Kemonie Briggs in the long jump.

Briggs set a personal record in the long jump with a 7.99m mark.

"I had a little extra support from the crowd so that really helped me get in my groove … I really just wanted to come out and have fun since it was our first outdoor meet at home, so why not show out a little bit," Briggs said.

Sythe made it a point to compliment the sophomore's feat.

"Kemonie is the kind of guy that responds to competition and we talk a lot about having to breed competition in our own program to get better," Sythe said. "I'm really proud how he responded to today and that he could jump a lifetime best."

On the women's side, the jumpers were successful in three out of four events and the sprinters won five out of their seven events. Also, The Beach women took first in the long jump, triple jump and high jump events.

Notable performances from the women came from sophomore Bria Palmer in the high jump, sophomore Allison Foster in the long jump, the 4x100m relay team, freshman Anaya Alexander in the 400m and senior Taylor Lorack in the 400m hurdles.

"Good things are coming and we are going to set the bar really high," Sythe said.

Sythe also mentioned that there were several UCLA starters that didn't compete, but didn't downplay the play of his team.

"They sat out some of their better players today who are going to the NCAA Indoors next week," Sythe said. "We sat out one guy and a few others for injuries. I'm humbled because very few times do you see a [win] for any school in front of UCLA."

Long Beach State will head to the Ben Brown Invitational at Cal State Fullerton this weekend for its second outdoor meet of the season.

Luke Ramirez | Daily 49er

Sophomore Josh Carr (right) celebrates with senior Robert Marlow after Carr's winning discus throw of 56.70 Saturday at Jack Rose Track.

BASEBALL

Dirtbags feel at home in N.C.

LBSU makes a statement against No. 8 North Carolina.

By Luke Ramirez
Assistant Sports Editor

Nathan Klima | The Daily Tar Heel

Long Beach State celebrates a victory over University of North Carolina Saturday. The Dirtbags went on to win the weekend series 2-1 against the Tar Heels.

Despite what has been an up-and-down start to the season, the Long Beach State Dirtbags gained some momentum after winning two out of three games against No. 8 North Carolina in Chapel Hill this weekend.

"It was good to see the guys go on the road against a quality team and compete," head coach Troy Buckley said. "Overall, I'm very pleased with how the weekend went."

The Dirtbags (6-5) got two solid starting pitching performances from junior pitchers Darren McCaughan (1-1) and John Sheaks (1-1) in games one and two.

McCaughan and Sheaks held the Tar Heels (9-3) to just three earned runs in a combined 12.1 innings pitched. Offensively, the Dirtbags' hitters collected 25 hits and scored 14 runs in the series.

"Being the third week into this season, it looked like [the team] finally got their feet on the ground," Buckley said.

Sheaks earned his first win of the season in game two after throwing 5.1 innings, allowing one run over four hits, and struck out three batters.

"It felt great to get the first [win] out of the way," Sheaks said. "It was a great team win and I couldn't have done it without the offense clicking and the bullpen coming in after me."

Junior third baseman Ramsey Romano had the most productive weekend at the plate, going 5 for 13 with three RBI's against the North Carolina.

"I always knew that was in me," Romano said. "I just had to prove it to my teammates and show that I can be a part of this offense and be a guy that makes things happen."

In the ninth inning of game one, Romano hit a single with the bases loaded and two outs that scored two runs, giving the Dirtbags the lead after being tied 2-2.

"Ramsey did a great job in every at bat this weekend," Buckley said. "They were all quality plate appearances and he showed me that he can be one of the more competitive guys in this lineup."

The Tar Heels managed to avoid the sweep in game three, winning 8-5. LBSU took a 3-2 lead in the fifth inning, but could not keep the Heels at bay as they answered with a five-run bottom half of the inning.

"This series was huge for us," Sheaks said. "Those two wins are going to help us out a lot when it comes to making the playoffs."

LBSU's strong performance helps with the team's morale and confidence at this point in the season.

"We definitely got a better understanding of what this team is capable of when we work as a team," Romano said.

The Dirtbags will try to keep up their recent success on the road when they head to Phoenix for a three-game series against Arizona State March 10-12.

"This weekend showed that we can go out and beat just about anyone, even on the road," Sheaks said.

LBSU's next home game will follow the Arizona State University series on March 13 against No. 1 Texas Christian University.
